**REGULATED INFORMATION
INSIDE INFORMATION****Nyxoa Appoints Liam Kelly as Chief Executive Officer***Further strengthening the Company's strategic U.S. presence and focus*

Mont-Saint-Guibert, Belgium – September 28, 2026, 10:30 pm CET / 4:30 pm ET – Nyxoah SA (Euronext Brussels/Nasdaq: NYXH) (“Nyxoa” or the “Company”), a medical technology company that develops breakthrough treatment alternatives for Obstructive Sleep Apnea (OSA) through neuromodulation, today announced the appointment of Liam Kelly as Chief Executive Officer, effective October 1, 2026, succeeding Olivier Taelman.

The appointment reflects Nyxoah’s continued evolution into a U.S.-focused commercial organization following FDA approval and the launch of Genio in the United States.

Liam Kelly brings more than 25 years of leadership experience. He served as Chairman, President and Chief Executive Officer of Teleflex Incorporated (NYSE: TFX), a global provider of medical technology products, until January 2026. He led Teleflex as President and Chief Executive Officer from January 2018 and as Chairman of the Board from May 2020. Mr. Kelly joined Teleflex in 2009 and held a series of senior operating roles, including President of EMEA, President, International, President, Americas, and Chief Operating Officer. Before Teleflex, he spent ten years at Hill-Rom Holdings, Inc. in senior management roles. Mr. Kelly is a director of Enovis Corporation (NYSE: ENOV) and holds a Bachelor of Business Studies from the University of Limerick.

“Nyxoa is entering a new chapter, with the United States at the center of our growth strategy. We are very pleased to welcome Liam as our new CEO. He is a seasoned U.S. MedTech executive with a strong track record of scaling organizations, driving commercial performance and creating shareholder value,” said Robert Taub, Chairman of Nyxoah. “On behalf of the Board, I also want to thank Olivier for his leadership over the past seven years and his contribution in bringing Nyxoah from clinical development through FDA approval and into U.S. commercialization.”

“I am incredibly excited to join Nyxoah at this pivotal stage,” said Liam Kelly. “Genio is a truly differentiated technology in the treatment of sleep apnea. The technology has tremendous potential to impact patient lives globally. The U.S. launch is still in its early stages, and the momentum we’re seeing in physician adoption gives me great confidence in what lies ahead. Drawing on my experience at Teleflex building and scaling global businesses, I look forward to working with the Nyxoah team to scale the business and bring Genio to many more OSA patients.”

About NyxoaH

NyxoaH is a medical technology company focused on the development and commercialization of innovative solutions to treat OSA. NyxoaH's lead solution is the Genio system, a patient-centered, leadless and battery-free hypoglossal neurostimulation therapy for OSA, the world's most common sleep disordered breathing condition that is associated with increased mortality risk and cardiovascular comorbidities. NyxoaH is driven by the vision that OSA patients should enjoy restful nights and feel enabled to live their life to its fullest.

Following the successful completion of the BLAST OSA study, the Genio system received its European CE Mark in 2019. NyxoaH completed two successful IPOs: on Euronext Brussels in September 2020 and NASDAQ in July 2021. Following the positive outcomes of the BETTER SLEEP study, NyxoaH received CE mark approval for the expansion of its therapeutic indications to Complete Concentric Collapse (CCC) patients, currently contraindicated in competitors' therapy. Additionally, the Company announced positive outcomes from the DREAM IDE pivotal study in 2024 and received approval from the FDA in August 2025, with the treatment of CCC patients included in the warning section of our indications for use.
