Additionally, the recent CMS proposed reimbursement increases in both hospital outpatient and ambulatory surgical centers are among the strongest within APC 5465 (Level 5 Neuromodulation) and, if approved, support continued economic value for the Genio procedure," commented Olivier Taelman, Nyxoah's Chief Executive Officer. "With $110 million in new financing, the financial overhang is now behind us, and we are positioned to accelerate Genio's U.S commercial ramp and drive toward profitability."

Revenue Guidance for the Full Year 2026

- The Company continues to expect global net revenue for the full year 2026 to be in the range of €36 million to €40 million.
